Overview

At the last Community Network meeting of 2012 we reviewed a lot of information and touched on the tip of the provisional iceberg.

Lets take a few minutes to go back over that presentation as it relates to provisionals.

Why?

Dispositioning

- Some voters easily fit into one category; they are given a provisional because they have moved or they didn't vote their EV.
- But many voters have multiple reasons—they don't have ID & they are in the wrong polling place & they have a name change.
- Voters who do not have ID when casting their ballot may return with their ID but they still don't qualify because they registered to vote after the deadline.
- If all the categories were included in the tally, it would count some voters twice.

Dispositioning

- Conditional voters who return will have a secondary box open so that if there are other eligibility criteria in question we can still get the number of conditional voters recorded as well:

The screenshot shows a software interface for ballot dispositioning. At the top, there's a blue header bar with the text "BALLOT INFORMATION". Below this, there are several input fields: "Status:" with a dropdown menu showing "Y", "Proof:" with a dropdown menu showing "N", "Special Action:" with a dropdown menu, and "Scan:" with a dropdown menu showing "EV". Below these, there's a "Reason:" field with a dropdown menu showing "A8 - SUFFICIENT IDENTIFICATION PROVIDED AT POLLS". Below the "Reason:" field, there's an "Add. reason:" field with a dropdown menu. Below the "Add. reason:" field, there's a list of reasons for dispositioning, including: A1 - NEW RESIDENT BALLOT, A2 - EARLY BALLOT REQUESTED AND NOT RETURNED, A3 - OFFICE ERROR OCCURRED, A5 - REGISTRATION RECEIVED TOO LATE TO BE PRINTED ON SIGNATURE ROSTER, A6 - NAME CHANGE, A7 - ID ADDRESS DOESN'T MATCH SIGNATURE ROSTER, B10 - YOU ARE NOT REGISTERED TO VOTE, B11 - INCOMPLETE INFORMATION GIVEN ON YOUR PROVISIONAL BALLOT FORM, B12 - YOU WERE NOT ELIGIBLE TO VOTE IN THIS ELECTION, B13 - YOUR EARLY BALLOT WAS SENT, RETURNED AND COUNTED, B14 - YOU WENT TO THE WRONG POLLING PLACE FOR THIS ELECTION, B15 - THE SIGNATURE ON YOUR, PROVISIONAL BALLOT DID NOT MATCH THE SIGNATURE ON YOUR VOTER REGISTRATION RECORD, B17 - INSUFFICIENT IDENTIFICATION PROVIDED AFTER ELECTION DAY, and B18 - NO BALLOT ENCLOSED IN ENVELOPE. Dispositioning & PEVL

- When attributing a reason to a provisional ballot, PEVL also comes into play.
- **59,622** voters had a provisional ballot only because they had not returned their EV, but there were an additional **12,563** voters who cast provisional ballots that ended up in other disposition codes.
- Of the **122,742** provisionals **72,185** were on the PEVL—**59%**!

Those that Didn't Count: % by Decade of Voter's Birth

The composition of provisionals cast by an age group varies widely.

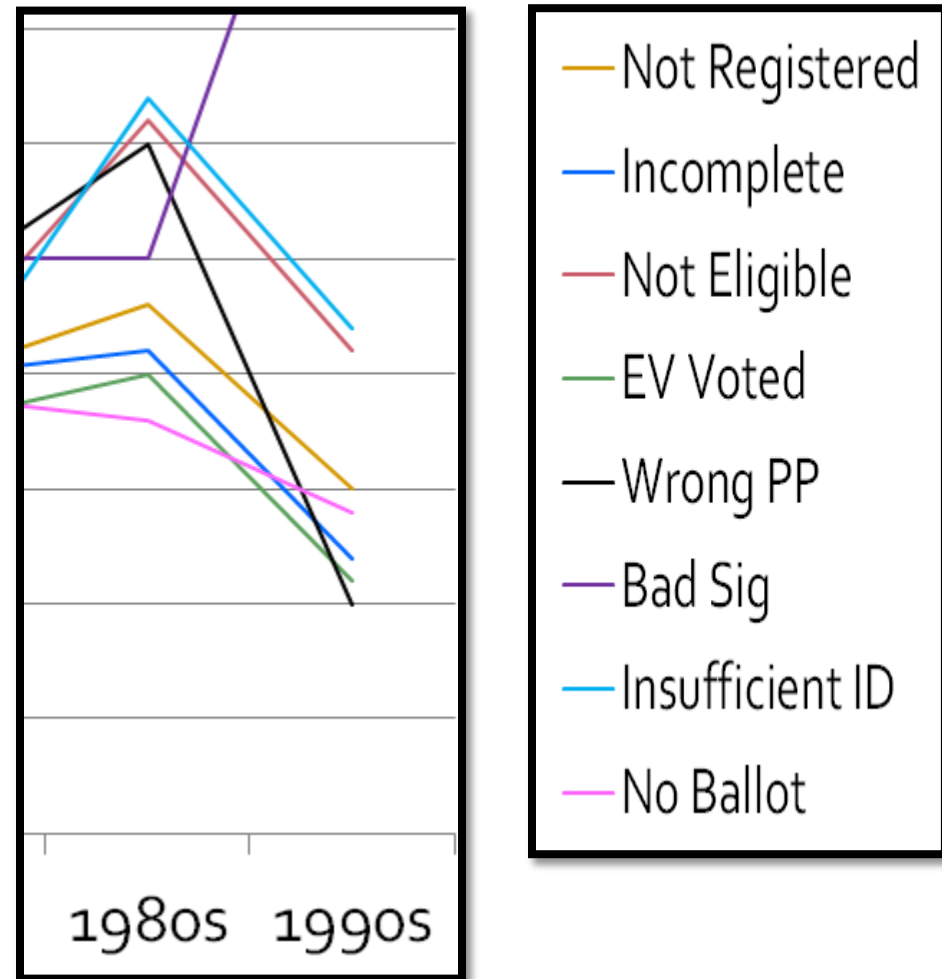

Those that Didn't Count: % by Decade of Voter's Birth

- Voters born in the 30s made up a small percentage, they were more likely to have voted their Early Ballot.
- Voters born in the 60s were the most likely to have put their ballot into the Insight.

Those that Didn't Count: % by Decade of Voter's Birth

- Young voters were most likely to be the voters who did not have ID (or return with ID), be ineligible/not registered, or go to the wrong polling place.

New Resident

This category covers voters who are registered but who have not kept their registrations current.

By going to the polling place servicing where they now live, they vote a ballot that 1) provides them with all the candidate options who will potentially represent them and 2) offer the voter the ability to weigh in on issues and taxes that will apply to them at their current address.

Voting the A1 provisional will update their registration with their new information.

VOTER REGISTRATION INFORMATION

VOTER REGISTRATION DEADLINE

Voter registration cutoff is 29 days before an Election. For this election, it was October 9th, 2012.

VOTER REGISTRATION REQUIREMENTS

Individuals registering to vote for the first time in Maricopa County must prove that they are a U.S. citizen and therefore eligible to register. Documents required for this proof are listed on the back of voter registration forms. The most convenient method to prove citizenship is for

incident/information report. ****Do not write in the signature block next to the voter's name.****

VOTERS WHO HAVE MOVED WITHIN MARICOPA COUNTY

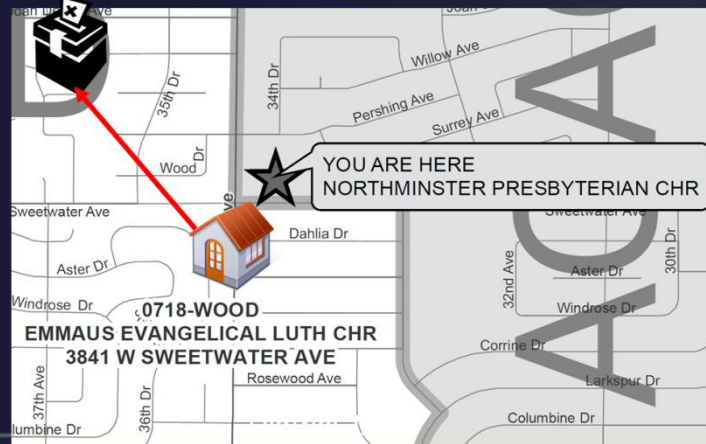

Voters who have moved within Maricopa County need to vote in the precinct where they now live and will be required to vote a provisional ballot. By filling out the provisional ballot form, their address will be updated, so there is no need to fill out a separate voter registration form.)

New Resident

In Bilingual class we go over the importance of voters getting to the polling place that services where the voter currently lives so that they are voting for individuals who will represent them and taxation which effects them.

Why do voters have to vote in home precinct?

- Even if the voter lives across the street from the PP they may live in another voting District.
- Voters need to have races and questions on their ballot that they are qualified to vote for.
- A provisional ballot in Acacia precinct will not contain the correct candidates.

The voter will be in the Signature Roster at the Lutheran Church

The ballot will contain candidates and questions for their address/representation.

Early Ballot Requested & Not Returned

Voters who do not return their early ballot, for whatever reason, vote a provisional ballot to ensure that no one is voting twice.

Voters who vote at home can request replacement ballots; because of this, on Election Day at the polls, the boardworkers do not know how many ballots a voter received--even if the voter wants to "surrender" an early ballot, they still have to vote a provisional because they may have received more than one.

#Ballots Cast in General Elections

*Early Ballot Requested & Not
Returned*

EARLY BALLOT PROCEDURE

Voted Early Ballots can be dropped off at any polling place on Election Day. Voters with Early Ballots may step to the front of the line to deposit the ballot sealed in its early ballot envelope into the Blue Early Ballot Box.

If the voter has her/his early ballot, but does not have an Early Ballot envelope, give the voter a blue Early Ballot envelope. Please be sure that the voter not only signs the envelope, but also fills out all of the required information listed on the back of the envelope. If the identity of the voter cannot be confirmed by Elections Department staff, the vote cannot be counted.

If a voter has his/her Early Ballot, but has changed his/her mind on a vote or otherwise has spoiled the ballot, he/she needs to write "SPOILED" across the ballot that was brought with her/him (which is then placed in the Clear Official Envelope) and must vote a Provisional Ballot and provide the required proof of identification. As always, Provisional Ballots will only be counted if the voter is in their correct precinct!

Early Ballot Requested & Not Returned

PROVISIONAL VOTING PROCEDURE

There are the six reasons why someone may be required to vote a provisional ballot:

- The voter does not have the required identification.
- The voter's name does not appear in the Signature Roster.
- The voter has moved.
- The voter requested an Early Ballot.
- The voter has changed their name.
- The voter is challenged at the polling place.

Once it has been determined that the voter needs to vote a Provisional Ballot, follow this procedure:

1. Verify the voter's address on the map. In order

from List #1, 2 items from List #2, from List #3 and one item from List #4. Circle "YES" at the top of the pink provisional ballot form. Circle "NO" ONLY IF: the voter does not have identification at all OR if the voter has only a military item from List # 2 or only a military ID card or passport. Only in these cases do voters circle "NO" at the top of the provisional ballot form. If the answer is NO, the voter can still vote a provisional ballot, but in this case, the voter must provide identification within 10 days after the election in order for the ballot to be counted and give him/her the list of locations where he/she may go to have identification.

3. Detach the pink Provisional Ballot form and place it in the

A2

Training

55

codes. When finished with the deletion list place the list back into the Inspector Packet.

- ☐ 3. Early Voters List- **A TECHNOLOGY CHANGE HAS BEEN MADE REGARDING EARLY VOTERS AND THE SIGNATURE ROSTER.** From now on, any voter that has requested an early ballot before the Signature Roster and Precinct Registers have gone to print will not only have an X marked in the box next to their name, they will also have the phrase "Please Issue a Provisional Ballot."

All voters that requested an early ballot after the Signature Roster goes to print or vote early at one of our Early Voting sites will be on a list called the EV list. Using this list, find the voter's name in BOTH the Signature Roster and Pink Precinct Register, and **PLACE A FIRM "X"** in both the EV box next to the voter's name **AND ALSO IN THE SIGNATURE BLOCK.** If the voter's name does not appear in the front portion of the Signature Roster or Register, check the YELLOW add-on sheets. If you cannot find the voter on either list, add them to the bottom of the yellow add-on list and mark the EV box and signature block. NOTE: It is not necessary to mark EVs in the green Precinct Registers.

Early Ballot Requested & Not Returned

We spend a lot of time going over how the Signature Roster is marked & why it is important in Bilingual class so that the workers can sufficiently explain it to the voters.

Ballot Styles

Signature Roster example

- The ballot stripe is shown for precincts with split districts. Voters must get the ballot for their address so that they vote for the correct representation & taxation.
- The Roster also tells you if the voter requested an early ballot (so will need a provisional ballot).
- If the voter has an “IA” it means their address is inactive (the post office has returned their mail to us) so be sure to verify the address is correct.

Why does it matter??

Early Ballot Requested & Not Returned

And why it is so important that the voter is given a provisional ballot even if they are turning an un-voted ballot in at the polls to spoil.

EXPLANATION OF ISSUE/COMMENTS:

Voter came in with a spoiled Early ballot. Gave voter regular ballot and voter put ballot in insight. MMG

Voter came in to dropped off an early ballot. Ballot was blank and the voter dropped it in the early voting box. Voter decided that they wanted to vote in person. Wanted to know what to do. MMG

- Voter should have been given a **provisional ballot**.
- Early voters can receive more than one ballot—if they call and say that they did not get their ballot, or spoiled it, we will mail them another. (The voter can only return one to us via the early voting process.)
- If they are allowed to vote a standard ballot at the polls they could potentially vote twice.

We discussed the source of much of the PEVL requests in the General Review.

We have done additional analysis to review how many of the online requests came via the voter's use of EZVoter and how many via the MVD office.

More analysis of Early Voting will be done in February's presentation.

Not all voter's information is public record.

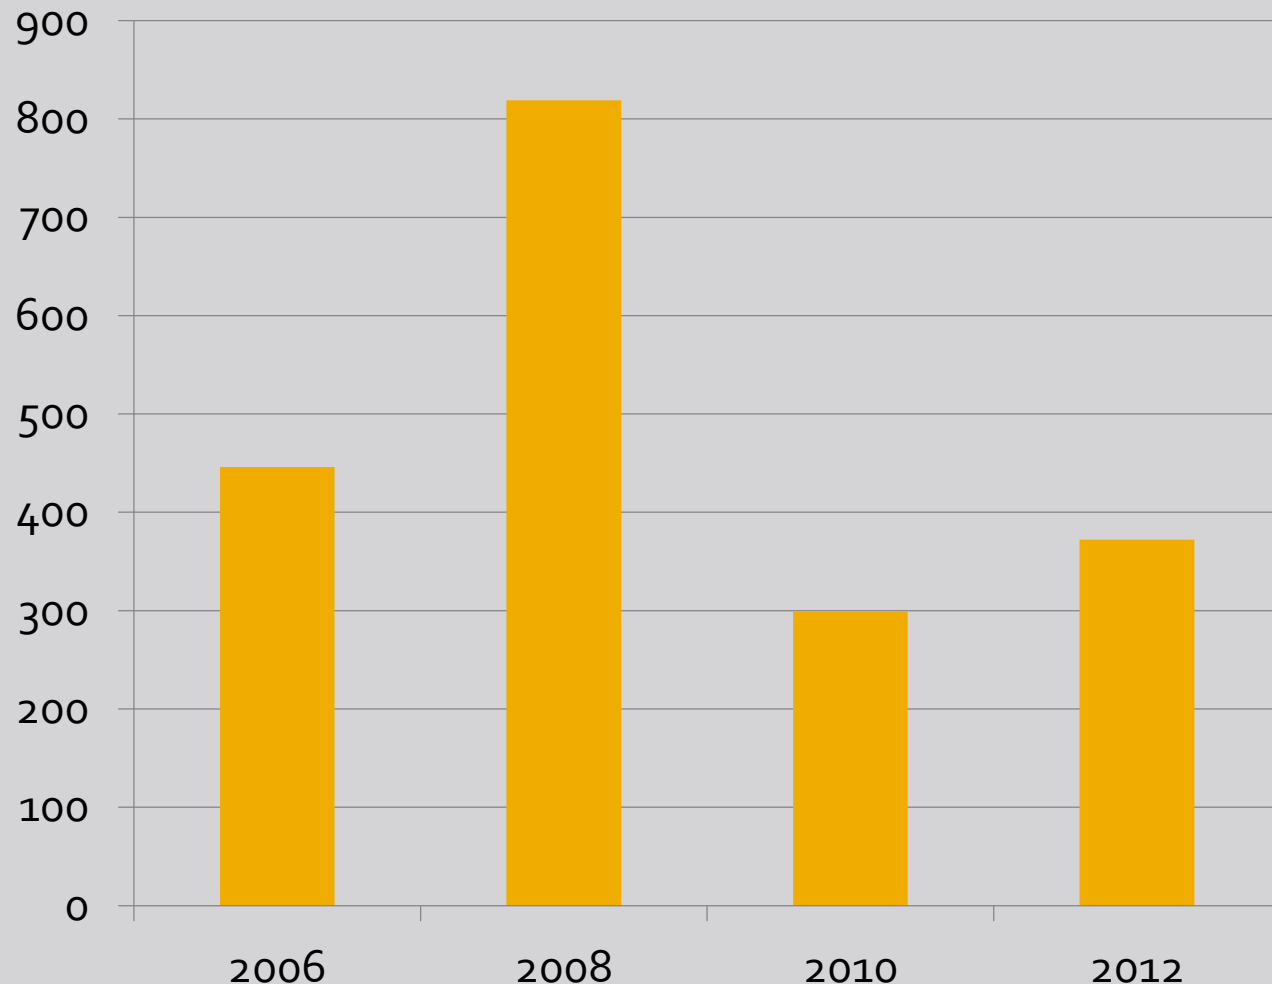

Many voters have gone through the formal process to have their information redacted from public record based on a variety of reasons:

- Domestic Violence Survivor
- Law Enforcement Officer
- Public Defender
- Prosecutor
- Corrections Officer

These voters will never be listed in the Signature Roster at the polls on Election Day.

They receive notice each year reminding them that they may want to go to an Early Voting Site or vote by mail.

PROVISIONAL VOTING PROCEDURE

There are the six reasons why someone may be required to vote a provisional ballot:

- The voter does not have the required identification.
- The voter's name does not appear in the Signature Roster.
- The voter has moved.
- The voter requested an Early Ballot.
- The voter has changed their name.
- The voter is challenged at the polling place.

Once it has been determined that the voter needs to vote a Provisional Ballot, follow this procedure:

1. Verify the voter's address on the map. In order

from List #1, 2 items from List #2, from List #3 and one item from List #4. Circle "YES" at the top of the pink provisional ballot form. Circle "NO" ONLY IF: the voter does not have identification at all OR if the voter has only a military ID item from List # 2 or only a military ID or passport. Only in these cases do voters circle "NO" at the top of the provisional ballot form. If the answer is NO, the voter still vote a provisional ballot, but in order for the ballot to count that he/she must provide identification 10 days after the election in order for the ballot to count and give him/her the list of items he/she may go to have identification.

3. Detach the pink Provisional Ballot

Harassment Coded Voter

Individuals with Protected Addresses

Certain individuals, including Peace Officers, Judges, Prosecutors, Public Defenders and individuals with an order of protection or injunction against harassment, may petition the court stating they are afraid for their safety. If the court agrees, it will order certain public documents that include the person's name and address including her/his voter registration. Therefore, these voters will not show up in any Signature Roster and if they go to the polls, will be required to vote a Provisional Ballot. THESE VOTERS ARE STILL REQUIRED TO SHOW IDENTIFICATION. However, when filling out the Provisional form, instead of writing the individual's address, write the words "ADDRESS PROTECTED". Elections staff have a particular procedure for confirming the identity and address for these individuals.

Registration Received Too Late to be Printed in the Roster

Although the voter registration cut off is 29 days prior to each election, the listing of voters for that election has to go to print prior to that cut off.

In order to get the Signature Rosters back, packed into the polling place supplies, readied into delivery routes, and finally delivered to the polling place prior to Election Day. We begin deliveries 2 weeks before the actual election.

Voters who register or update their information appear on "Add-on" lists at the polls but may occasionally be missed by the boardworkers.

SIGNATURE ROSTER AND PRECINCT REGISTER TASKS:

Signature Rosters and Precinct Registers are printed 45 days out from Election Day, but voter registration cut-off is 29 days out from Election Day. Therefore, lists of add-ons, deletions and early voters are how we remedy those last minute changes. These modifications are found in the Inspector Packet. Please do not put alpha tabs on the Signature Roster pages. We cannot scan the pages through the computer if you do this.

1. Add-on List – Place the YELLOW paper add-on list that is pre-punched with three holes in the back of the Signature Roster. Add one of the WHITE copies to the back of each of the green and pink Precinct Registers. The Register Numbers will begin with an "A" (A0001) for Add-on voters.

All voters that requested an early ballot after the Signature Roster goes to print or vote early at one of our Early Voting sites will be on a list called the EV list. Using this list, find the voter's name in BOTH the Signature Roster and Pink Precinct Register, and **PLACE A FIRM "X"** in both the EV box next to the voter's name **AND ALSO IN THE SIGNATURE BLOCK**. If the voter's name does not appear in the front portion of the Signature Roster or Register, check the YELLOW add-on sheets. If you cannot find the voter on either list, add them to the bottom of the yellow add-on list and mark the EV box and signature block. NOTE: It is not necessary to mark EVs in the green Precinct Registers.

Registration Received Too Late to be Printed in the Roster

In Bilingual class we emphasize that the workers should check the Add-on list because many of these voters are listed there and could have voted a standard ballot.

Eligible Voters

- If a voter insists that they registered before the registration dead line:
 - BE SURE TO CHECK YOUR ADD-ON LIST!!**
 - If the voter does not appear anywhere in the roster AND they insist that they registered before the deadline then the voter is going to **HAVE TO VOTE A PROVISIONAL BALLOT.**

VOTER REGISTRATION INFORMATION

VOTER REGISTRATION DEADLINE

Voter registration cutoff is 29 days before an Election. For this election, it was October 9th, 2012.

VOTER REGISTRATION REQUIREMENTS

Individuals registering to vote for the first time in Maricopa County must prove that they are a U.S. citizen and therefore eligible to register. Documents required for this proof are listed on the back of voter registration forms. The most convenient method to prove citizenship is for the registrant to list her/his Arizona driver's license or non-operating ID number, as long as it was issued after October 1, 1996. For more information, please refer registrants to the back page of the voter registration form or to the Maricopa County Public Information number at (602) 506-1511.

DECEASED VOTERS WHOSE NAMES

incident/information report. **Do not write in the signature block next to the voter's name.**

VOTERS WHO HAVE MOVED WITHIN MARICOPA COUNTY

Voters who have moved within Maricopa County need to vote in the precinct where they now live and will be required to vote a provisional ballot. By filling out the provisional ballot form, their address will be updated, so there is no need to fill out a separate voter registration form.

OTHER VOTER INFO CHANGES

Voter registration forms must be filled out by voters who wish to do the following:

- Change their political party affiliation
- Change their name only
- Update their mailing address, if not voting a provisional ballot.

ID Address Doesn't Match Signature Roster

If the address on the voter's ID doesn't match the address where they are registered they vote a provisional ballot.

Voters are now able to "mix & match" photo and non-photo IDs in order to vote a standard ballot which has dramatically decreased this category of provisionals.

Both residential and mailing addresses are listed in the Signature Roster when the voter has supplied them.

ID Provided at Polls Election Day

As we discussed in the General Review, the number of voters impacted by the ID requirement has declined since its implementation, but we still see fewer voters returning with ID than those who do not.

Voters are more inclined to return to the polls with their ID on Election Day.

This year we had half as many Conditionals, but even fewer returned.

If the voter returns to the polling place with required ID after voting a Provisional Ballot:

- ☐ Does the voter have required ID from List #1 List #2 or List #3 as shown on Page 27 of this manual? (Remember, at this point, it doesn't matter if the address matches anything, it's just important if they have the document(s)).
- ☐ If the answer is yes, please fill out a pink "Proof of Identification" form, sign it and have the voter sign it and deposit it in the Red Provisional Ballot Box. **DO NOT OPEN THE RED PROVISIONAL BALLOT BOX FOR ANY REASON.**
- ☐ THE VOTER MUST SHOW UP IN PERSON WITH THEIR IDENTIFICATION.

The options available to voters without ID are presented and workers reminded that it is up to **THE VOTER** how they want to proceed (go home get ID, vote conditional provisional and come back with ID to the polls or to an ID site).

However, based on the data we advise the workers to encourage voters to return on Election Day since history has shown that to be the most effective.

Insufficient ID or no ID at all:

- Or the voter can vote a Provisional Ballot, but identification will still be necessary in order for the ballot to be processed.
- The voter can go home, get ID, and return to the polling place while the polls are open:

The voter chooses to return to the polls with ID:

When the voter returns, the Boardworkers will review the ID, fill out a form showing that ID was validated, and insert the form in the Provisional Ballot Box. The form and the ballot will be matched up and the vote processed.

Voters are given a listing of all the ID verification sites as well as a list of valid ID when they cast their ballot on Election Day.

These sites are also listed on the website and available via the voter information phone line.

The screenshot shows the Maricopa County Elections Department website. At the top, there is a banner for Helen Purcell, Maricopa County Recorder. Below the banner, the text reads 'MARICOPA COUNTY ELECTIONS DEPARTMENT REGISTRATION AND VOTING INFORMATION'. A yellow arrow points from the text 'These sites are also listed on the website' to a link labeled 'Post Election Voter ID Verification Sites' under the 'Register to Vote or Update Voter Registration' section. Other links include 'Acceptable Voter Identification' and 'Ver en Español'.

The document is titled 'MARICOPA COUNTY POST ELECTION VOTER ID VERIFICATION SITES' and 'SITIOS DE VERIFICACIÓN DE ID POSTERIOR A LA ELECCIÓN'. It contains instructions in English and Spanish for voters who need to return with proof of ID. The document lists various verification sites across the county, organized into three main sections: Central Valley/Valle Central, East Valley/Este del Valle, and SW Valley/Suroeste del Valle. Each section lists the location, hours, and the clerk responsible for the site. A yellow arrow points from the text 'These sites are also listed on the website' to this document.

PROVISIONAL VOTING PROCEDURE

There are the six reasons why someone may be required to vote a provisional ballot:

- The voter does not have the required identification.
- The voter's name does not appear in the Signature Roster.
- The voter has moved.
- The voter requested an Early Ballot.
- The voter has changed their name.
- The voter is challenged at the polling place.

Once it has been determined that the voter needs to vote a Provisional Ballot, follow this procedure:

1. Verify the voter's address on the map. In order for the ballot to be counted, the voter must live in the precinct at which they vote. If the voter does not vote with you, carefully determine the correct polling place. If there is a problem identifying where the voter should vote, direct her/him to the voter assistance line at 602-506-1511. Please do not call the Hotline for this issue.

2. Ask the voter for the required proof of identity, as listed on page 27. If the voter has one item

from List #1, 2 items from List #2, or one item from List #3 and one item from List #2, CIRCLE "YES" at the top of the pink provisional ballot form. Circle "NO" ONLY IF: the voter has no identification at all OR if the voter has only one item from List # 2 or only a military identification or passport. Only in these cases does the board worker circle "NO" at the top of the provisional ballot form. If the answer is NO, the voter may still vote a provisional ballot, but instruct the voter that he/she must provide identification within 5 days after the election in order for his/her vote to count and give him/her the list of locations where he/she may go to have identification verified.

3. Detach the pink Provisional Ballot Receipt, provide it to the voter, and then completely fill out the provisional ballot form.

4. Write the four digit precinct number on Line #1 of the provisional ballot form.

5. One BOARD WORKER and the VOTER must sign the form in order for the ballot to be counted.

The diagram shows the Arizona Provisional Ballot form with the following callouts:

IDENTIFICATION AT THE POLLS

So, WHO can vote?

The Help America Vote Act is clear - every individual has the right to vote and no one should be turned away. However, there are limitations on whether that vote will be counted. In Arizona, only registered voters in the correct precinct that have proven their identity will have their vote counted. Therefore, it is very important that while everyone is offered the opportunity to vote, if all criteria are not met, the voter votes a Provisional Ballot. As mandated by A.R.S. § 16-579 (A), every voter is required to show proof of identity before their ballot at the polling place is counted. There are two parts to identification: 1. what is acceptable identification; 2. whether the identification matches the signature roster determines how the voter will vote.

- ___d) LARGE WHITE ENVELOPE MARKED "MIS-READ BALLOTS"
- ___e) PINK PROVISIONAL BALLOT SIGNATURE ROSTER

- ☐ 3. Post in a place where voters can easily read, the red & white WRITE-IN CANDIDATES SIGN found in the election supplies. Tape the LIST OF AUTHORIZED WRITE-IN CANDIDATES found in the Inspector Packet on the write-in candidates sign. If there are no write-in candidates, write "NO WRITE-INS" on the red & white poster.

- ☐ 4. Post in the polling place room, in a place where voters can easily read:

- ___a) 2 SAMPLE BALLOTS OF EACH BALLOT STYLE (found in the Inspector Packet)
- ___b) 2 INSTRUCTIONS TO VOTERS AND ELECTIONS OFFICERS & RIGHT TO VOTE A PROVISIONAL BALLOT SIGN (found in the supplies).
- ___c) 2 NO SMOKING SIGNS/TURN OFF YOUR CELL PHONE (found in the supplies)
- ___d) 2 REQUIRED IDENTIFICATION AT THE POLLS SIGNS (found in the supplies).

- ☐ 5. Place all extra supplies back into the Red Provisional Ballot Box for the night. DO NOT SEAL THE RED AND BLUE BALLOT BOXES UNTIL ELECTION MORNING.

The largest portion of this group are individuals who registered to vote after the 29 day deadline, but there are other reasons as well:

- Not yet 18 years of age
- Not a resident (on the provisional they list an address outside of the county and in some cases the state)

VOTER REGISTRATION INFORMATION

VOTER REGISTRATION DEADLINE

Voter registration cutoff is 29 days before an Election. For this election, it was October 9th, 2012.

VOTER REGISTRATION REQUIREMENTS

Individuals registering to vote for the first time in Maricopa County must prove that they are a U.S. citizen and therefore eligible to register. Documents required for this proof are listed on the back of voter registration forms. The most convenient method to prove citizenship is for the registrant to list her/his Arizona driver's license or non-operating ID number, as long as it was issued after October 1, 1996. For more information, please refer registrants to the back page of the voter registration form or to the Maricopa County Public Information number at (602) 506-1511.

VOTERS WHO HAVE MOVED WITHIN MARICOPA COUNTY

Voters who have moved within Maricopa County need to vote in the precinct where they now live and will be required to vote a provisional ballot. By filling out the provisional ballot form, their address will be updated, so there is no need to fill out a separate voter registration form.

OTHER VOTER INFO CHANGES

Voter registration forms must be filled out by voters who wish to do the following:

- Change their political party affiliation
- Change their name only
- Update their mailing address, if not voting a provisional ballot.

- If a voter insists that they registered before the registration dead line:
 - **BE SURE TO CHECK YOUR ADD-ON LIST!!**
 - If the voter does not appear anywhere in the roster AND they insist that they registered before the deadline then the voter is going to **HAVE TO VOTE A PROVISIONAL BALLOT.**

Your Early Ballot Was Sent, Returned, and Counted

With the inaccurate information that was being circulated prior to the election regarding Early Ballots not counting, ballots being purported to be “thrown in the trash”, more voters who had already mailed in their ballot went to the polls to vote.

Because they were listed in the Signature Roster as having requested an EV the boardworkers ensured they voted a provisional ballot and thus did **NOT** have two ballots count.

#Ballots Cast in General Elections

Your Early Ballot Was Sent, Returned, and Counted

EARLY BALLOT PROCEDURE

Voted Early Ballots can be dropped off at any polling place on Election Day. Voters with Early Ballots may step to the front of the line to deposit the ballot sealed in its early ballot envelope into the Blue Early Ballot Box.

If the voter has her/his early ballot, but does not have an Early Ballot envelope, give the voter a blue Early Ballot envelope. Please be sure that the voter not only signs the envelope, but also fills out all of the required information listed on the back of the envelope. If the identity of the voter cannot be confirmed by Elections Department staff, the vote cannot be counted.

If a voter has his/her Early Ballot, but has changed his/her mind on a vote or otherwise has spoiled the ballot, he/she needs to write "SPOILED" across the ballot that was brought with her/him (which is then placed in the Clear Official Envelope) and must vote a Provisional Ballot and provide the required proof of identification. As always, Provisional Ballots will only be counted if the voter is in their correct precinct!

In Bilingual class we go over examples of how voters are listed in the Roster and what type of ballot they would need to get.

This ensure that those who have already voted are not given a second standard ballot at the polls.

% OF PROVISIONALS CAST BY DESIGNATED VOTER GROUP

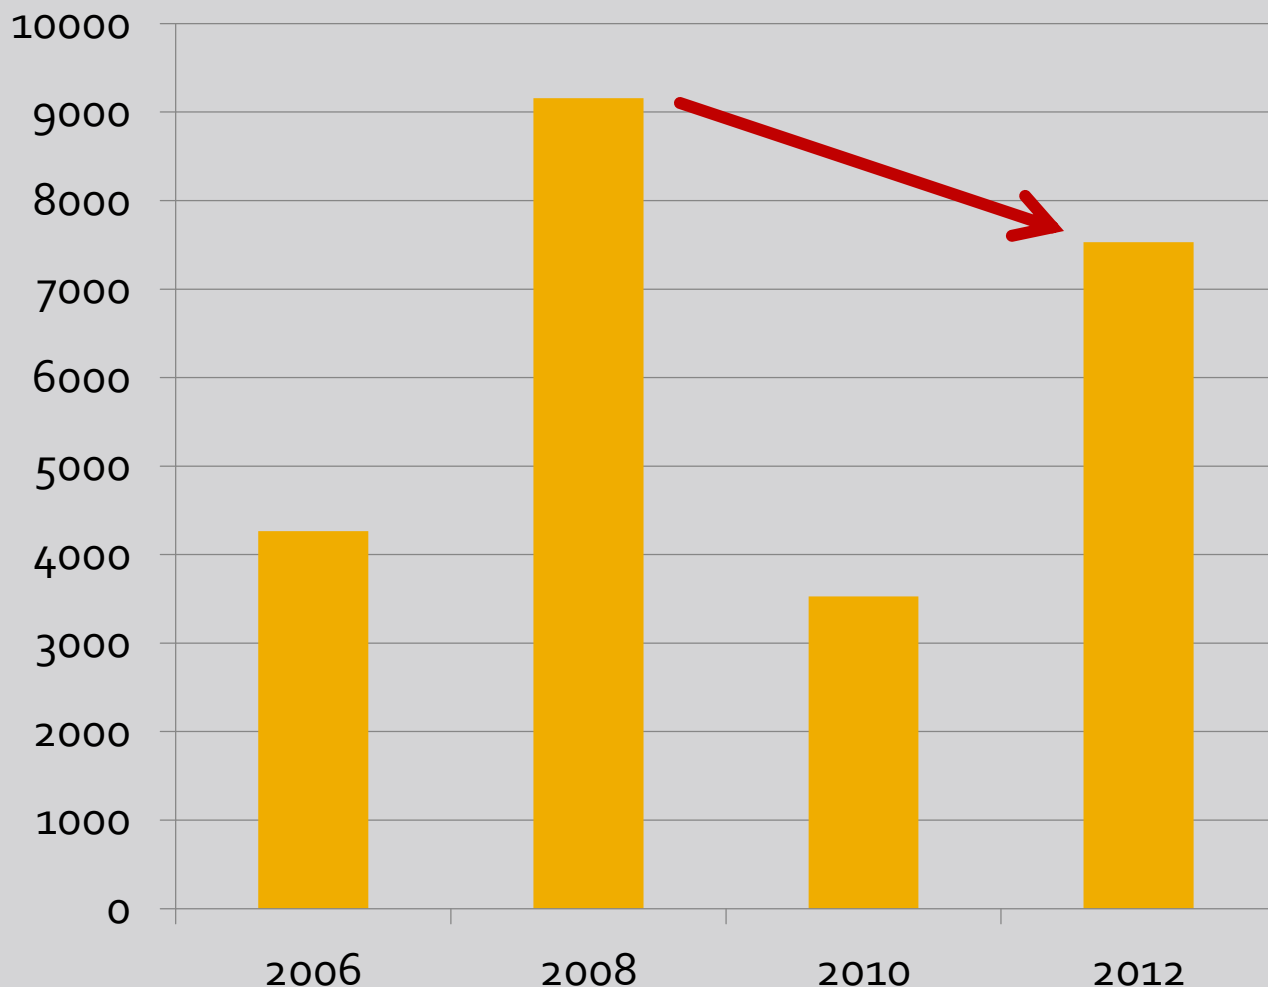

You Went to the Wrong Polling Place for this Election

As we discussed in the General Review, the number of voters who historically go to the wrong polling place is usually 1% of all the voters who vote at the polls.

In 2008 that rose to 1.5% with the increase of first time voters.

The General 2012 saw yet another increase which we estimate is due to many of those voters being signed up for PEVL, didn't vote that ballot, and also did not receive a sample ballot.

You Went to the Wrong Polling Place for this Election

In the state of Arizona, a voter must vote in the correct precinct in order for the ballot to count. Therefore, if a voter is not in the signature roster, it is vitally important that the map is checked to ensure the voter is in the correct precinct before voting the voter a provisional ballot. If the voter is not sure of the correct voting location, please have the voter call the voter information line at (602) 506-1511.

Precinct Registers

There are typically three precinct registers in every precinct. **This General Election, there will be a fourth.** These are additional lists of the names of voters in the voting precinct that provide additional information, including the voter's party affiliation and the correct ballot that each voter should receive. One green precinct register is used by the board worker to correctly spell voters' names in the Poll List, one green register is used by the board worker distributing the ballots, the pink register is used at the provisional ballot table and the yellow register will be by the Marshal to assist voters in line to determine if they are in the correct precinct and/or if they need to vote a provisional ballot.

PROVISIONAL VOTING PROCEDURE

There are the six reasons why someone may be required to vote a provisional ballot:

- The voter does not have the required identification.
- The voter's name does not appear in the Signature Roster.
- The voter has moved.
- The voter requested an Early Ballot.
- The voter has changed their name.
- The voter is challenged at the polling place.

Once it has been determined that the voter needs to vote a Provisional Ballot, follow this procedure:

1. Verify the voter's address on the map. In order for the ballot to be counted, the voter must live in the precinct at which they vote. If the voter does not vote with you, carefully determine the correct polling place. If there is a problem identifying where the voter should vote, direct her/him to the voter assistance line at 602-506-1511. Please do not call the Hotline for this issue.
2. Ask the voter for the required proof of identity, as listed on page 27. If the voter has one item

from List #1, 2 items from List #2, or one item from List #3 and one item from List #2, CIRCLE "YES" at the top of the pink provisional ballot form. Circle "NO" ONLY IF: the voter has no identification at all OR if the voter has only one item from List # 2 or only a military identification or passport. Only in these cases does the board worker circle "NO" at the top of the provisional ballot form. If the answer is NO, the voter may still vote a provisional ballot, but instruct the voter that he/she must provide identification within 5 days after the election in order for his/her vote to count and give him/her the list of locations where he/she may go to have identification verified.

3. Detach the pink Provisional Ballot Receipt, provide it to the voter, and then completely fill out the provisional ballot form.

4. Write the four digit precinct number on Line #1 of the provisional ballot form.

5. One BOARD WORKER and the VOTER must sign the form in order for the ballot to be counted.

The diagram shows the Arizona Provisional Ballot form with the following callouts:

- 1** Precinct Number
- 2** Leave Blank
- 3** Leave Blank
- 4** Edge "A" Number
- 5** Circle "YES" or "NO"

Other labels on the form include:

- AZ Driver License # or, if none, last 4 of SSN
- Current Information
- Former Information
- FOR OFFICE USE ONLY
- Y / N
- Signature
- DATE / FECHA

Any voter who does provide ID, either at the polls on Election Day or at an ID verification site post election, is categorized as a B17.

Although we saw much fewer voters in this category in 2012, it still is larger than the number of voters who return with ID.

No Ballot Enclosed in Envelope

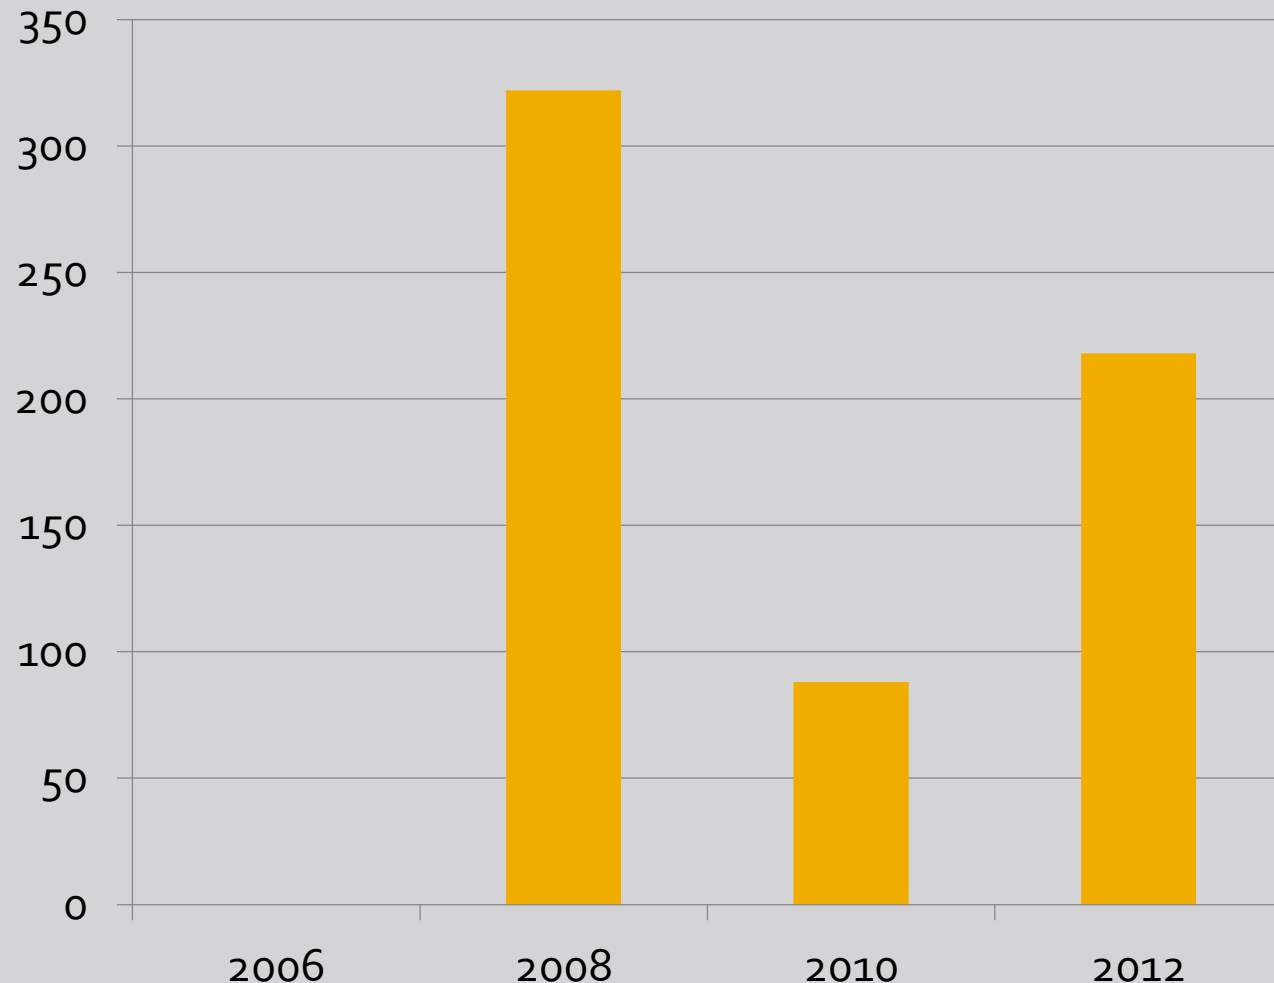

This occurs for a variety of reasons:

- Voter put their ballot through the Insight.
- Voter left the polling place with the ballot.
- Voter abandoned the process and left the form and envelope (this is rare).

All are reviewed to see if the voter was, in fact, eligible to cast the ballot.

In the reconciliation audit of every precinct we can determine if ballots are/were missing.

Provisional Ballot Process (continued...)

- 1) Write the voter's name in the PINK Provisional Signature Roster and number it (i.e. P1, P2..). If you circled "NO" on the pink cover page of the Provisional Ballot form, check the box next to the printed name.
- 2) Have the voter sign her/his name in the signature block next to her/his name in the Pink Provisional Signature Roster.
- 3) Attach the form to the outside of the Provisional Ballot envelope. Give the envelope to the voter.
- 4) To determine the correct ballot, refer to the Pink Precinct Register, looking at the right hand column. If the voter's name is not in the Register and your precinct has different striped ballots, (i.e. purple, green or gold strips) refer to the split map, determine where the voter lives and the correct color striped ballot that should be given to the voter. Offer the English and Spanish ballots equally to every voter.
- 5) Fold the ballot in half and give it to the voter. Secrecy folders should be made available to those voters that prefer to use them.
- 6) The voter proceeds to a Voting Booth and marks her/his ballot with the black ballot marking pen.
- 7) The voter places the folded voted ballot in the PROVISIONAL BALLOT ENVELOPE, closes and seals the envelope, and then drops it into the Ballot Box with a Red Lid.

We cover the main topics in both English and Spanish in Bilingual Class to ensure that the workers are familiar with common issues in both languages and are then comfortable explaining it to the voter.

Asegúrese de poder explicarle al votante :

- A qué lugar de votación necesita ir y porqué.
- Porqué necesita llenar la forma provisional en su totalidad e incluir tanta información como pueda.
- Qué ID es necesaria y como resolver ID insuficiente si no tiene ID consigo cuando emita su boleta.
- Que la boleta provisional DEBE ir en el sobre y NO ser insertada dentro del Insight en el lugar de votación & porqué.

Costs of Provisionals

- Maricopa County participated in the Pew Center on the States Voting in America 2012 Conference in December of 2012 and presented on a panel discussing the costs of elections along with the Louisiana Secretary of State and the Director and General Counsel, Wisconsin Government Accountability Board.
- The entire presentation, which includes information on online voter registration as well, is on the Community Network website.

Some slides from that presentation:

Cost of Provisionals

• Provisional form	\$.09
• Envelope	\$.05
• Signature Verification	\$2.25 (research of the voter & signature verification)
• Processing	\$1.50 (scanning, envelope & ballot processing, etc.)
TOTAL:	\$3.89

Gen 2008= \$394,889.46

Gen 2010= \$205,255.85

Gen 2012= \$477,423.59

This doesn't put a price on the longer lines due to provisionals nor the hits to voter confidence when covered poorly by the media.

Local media told the public that provisional ballots get “thrown in the trash”—there is a cost to that as well.

IF NOT REGISTERED an additional:

- VR form .13
- Envelope .02
- Postage .44
- **TOTAL .59 (\$4.48 total)**

Gen 2008: 8,818 voters costing \$39,504.64 total

Gen 2010: 3,113 voters costing \$13,946.24 total

Gen 2012: 7,220 voters costing \$32,345.60 total

IF ON PEVL an additional:

• EV ballot	.30
• Envelopes	.14
• Inserts	.07
• Postage	.10
• Processing	1.51
TOTAL	\$2.12 (\$6.01 total)

Gen 2008: 25,176 voters costing \$151,307.76 total
Gen 2010: 25,475 voters costing \$153,104.75 total
Gen 2012: 59,607 voters costing \$358,238.07 total

More than
doubled!

Costs of Provisionals for General 2012:

\$477,423.59 basic cost of provisionals

\$4,259.80 additional for those who were not registered

\$153,032.20 additional for PEVL voters un-voted materials

\$634,715.59 TOTAL ESTAIMATED COST

What can help mitigate this?

Do the possible solutions:

- 1) Make a more efficient system?
- 2) Result in a better voting experience?
- 3) Cost less?

Identified Issues:

- 1 PEVL voters going to the polls
- 2 Provisionals impact our community differently depending on the type of provisional.
- 3 Provisionals are costly; both financially & to voter confidence in the process.

Mitigation Strategies

Mitigation #1: EZVoter PEVL Page

EZ Voter
Registration

Permanent Early Voting List - Early Ballot

Arizona law allows a voter to place his or her name on a "Permanent Early Voting List (PEVL)." By doing so, it is no longer necessary to request an early ballot for each election. Instead, an early ballot will **automatically** be mailed to the voter approximately 26 days prior to each election for which he or she is qualified.

Once you choose to be included on this list, you will remain on this list until your registration is cancelled, mail sent to you is returned by the Postal Service marked undeliverable, or you request in writing to be removed from the list, whichever occurs first.

Once on this list, you will receive notice prior to any election in March or August that will include the dates of the next two upcoming elections, the dates that your ballots are expected to be mailed and the address where the ballots will be mailed. The notice will allow you to elect not to receive an early ballot for one or both of the elections, to update your residence or mailing address, ask that your ballot be mailed to a different address, or to remove yourself from the list entirely.

PLEASE NOTE: If you are on the Permanent Early Voting list, Arizona law requires that your mailing address must be within the County you are registered to vote. You may ask that individual ballots be mailed to an address outside of your county, but you must do so for each election.

To automatically receive an early ballot by mail (without having to request one for each election), select the Yes button below. Selecting Yes or No is optional.

☐ Yes, I want to automatically receive an early ballot for each election for which I am eligible.

☐ No, I DO NOT want to automatically receive an early ballot. I understand that selecting this button will remove my name from the list if it was previously included.

Note: If "yes" is selected above, you will be added to the Permanent Early Voting List. If "no" is selected above, your name will not be added to PEVL and will be removed from PEVL if it was previously included on the list. If neither "yes" nor "no" is selected above, your record will remain unchanged as it relates to being on the PEVL.

The last day for an early ballot to be mailed to you is 10 days prior to an election. If you sign up to be added to PEVL within the last 10 days prior to an election, a ballot will not be mailed automatically for that election. You should contact the County Recorder's Office to see if walk-in early voting is available or you can vote at your assigned polling place.

Mitigation #1: EZVoter PEVL Page

- We immediately began working with the Secretary of State's office to come up with some plain language alternative for the PEVL page:

The screenshot shows the EZ Voter Registration page for the Permanent Early Voting List (PEVL). The header features the ServiceArizona.com logo and the EZ Voter Registration title. The main content area is titled "Permanent Early Voting List - Early Ballot" and contains three paragraphs of text explaining the PEVL process. At the bottom, there are two buttons: "I Want To Vote By Mail (Permanently)" and "I Want To Go To The Polls To Vote". The right sidebar contains a navigation menu with links for Info, Security, Privacy Policy, Help, Contact Us, Secretary of State Home Page, Feedback, and User Survey. The footer includes the ServiceArizona Home Page link and the IBM logo.

Mitigation #1: EZVoter PEVL Page

- Or perhaps something as simple as this:

Mitigation #2: MVD PEVL

- Because roughly 42% of the PEVL requests coming from the MVD utilization of the online system, additional training and emphasis will be given to MVD staff.

Mitigation #2: PEVL Box

- There is discussion about removing the PEVL box from the paper form.

[1] Permanent Early Voting List – Early Ballot (see instructions above)

- ☐ YES, I want to automatically receive an early ballot for each election for which I am eligible.
- ☐ NO, I **DO NOT** want to automatically receive an early ballot. I understand CHECKING THIS BOX will remove my name from the list if it was previously included.

[1] Lista de Votación Temprana Permanente - Boleta Electoral Temprana (vea las instrucciones arriba)

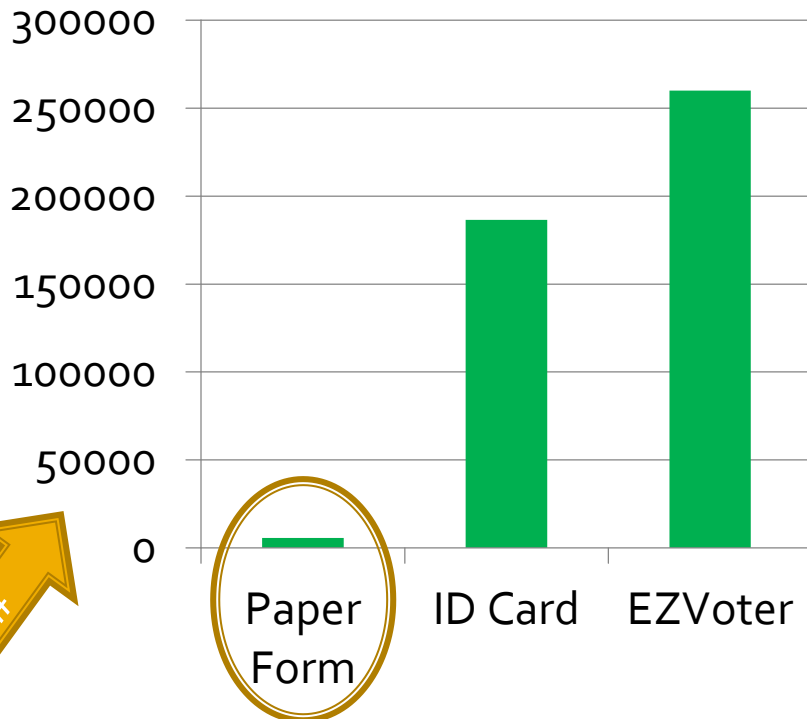

- ☐ SÍ. Yo quiero recibir automáticamente una boleta electoral temprana para cada elección a la cual sea elegible.
- ☐ NO. **NO DESEO** recibir automáticamente una boleta electoral temprana. Yo entiendo que al MARCAR ESTA CASILLA, removeré mi nombre de la lista si éste estaba incluido previamente.

Mitigation #2: PEVL Source

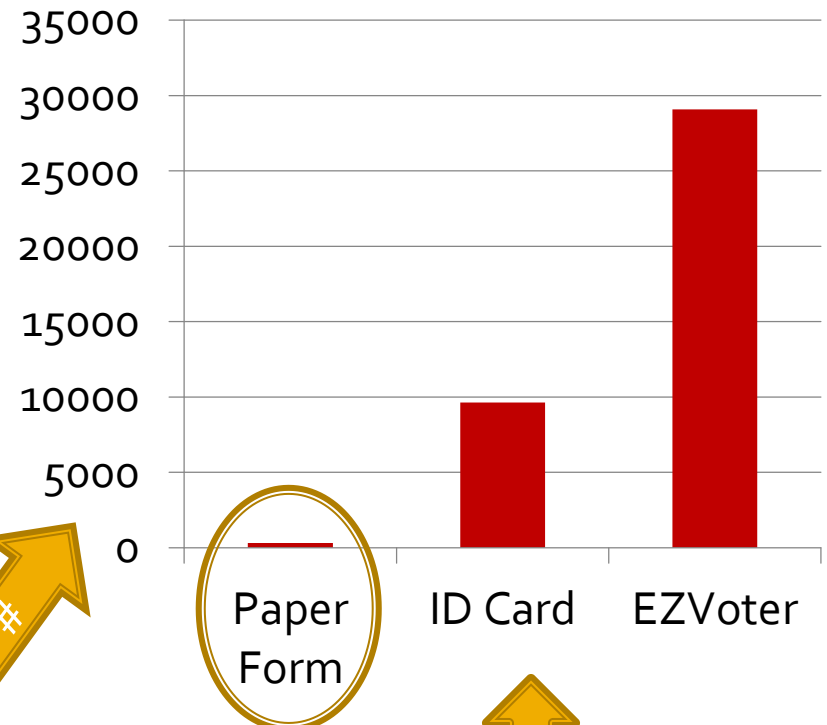

We'll talk more about this next month, but it wouldn't be that impactful in Maricopa because so many more voters use other methods to get on PEVL:

SUCCESSFULLY VOTED BY MAIL PROVISIONAL BALLOT AT PP

Ballots Cast

Ballots Cast

This represents ALL provisionals—those that counted & those that did not.

Mitigation #3: MVD Address Changes

- Currently when someone updates their address on the DL portion of the MVD site they must also do so on EZVoter to have that address update their voter registration.
- Residential addresses statewide should be the same for both as you must claim your main residence for both vehicle and voter registration.
- Legally they should be the same...

Mitigation #3: MVD Address Changes

- Moving forward when the public updates the address on their vehicle registration it will tell them that this address will be used for voter registration and will update it automatically.
- Some possible/draft language:

Voter Registration/**Update**: I certify that I am not a convicted felon or my civil rights have been restored, and that I have not been adjudicated incompetent. I certify that I am a United States citizen. Submitting a false voter registration is a Class 6 felony. **I understand that changing the address(es) on my driver license will also change my voter registration record.** Your decision to register to vote or not, and where you submitted your application will remain confidential.

Mitigation #4: Outreach & Education

- Moving forward MCED will be launching more rigorous outreach and education efforts to convey to voters real time messages:
 - Ballots are mailing out _____ you should get it by _____ if you are on the PEVL; if you don't, ***contact us!***
 - You should have received your early ballot by now; if not, ***contact us!***
 - MCED pays for postage! You don't have to drop off the ballot at the polls.
 - Primary election ballot selection requirement for voters on PEVL without a recognized party.

Mitigation #4: Outreach & Education

- These efforts will include multi-pronged media buys:
 - Television
 - Radio
 - Newsprint

Mitigation #5: Outreach & Education

- We will be doubling our efforts to engage members of the Community Network to assist us in serving members of their constituencies in those identified areas:
 - Hispanic and Latino voters
 - Going to wrong polling place
 - Update VR when name changes
 - Returning EV
 - Students & young voters
 - All that plus timely registration
 - ID requirements & resolution
 - How to check if EV already received/counted

Mitigation #6: Outreach & Education

- We have also been in contact with ASU administration to devote some resources in verification of correct address formatting for the three campuses as that has been an identified issue.
- Additionally, now that there are students living in the new dorms in downtown Phoenix we will allocate additional boardworkers there in future elections.
- We are hoping the University will incorporate voter registration into their orientation process.

Mitigation #7: Legislation

- MCED is looking at legislative answers as well.
- If a voter does not vote the PEVL ballot mailed to them in an election cycle (Primary/General) they would be sent a letter advising them that they will be removed from PEVL unless they contact the County Recorder.
- If they vote in one election, but not the other, ***they stay on the PEVL.***
- ***THIS HAS NOTHING TO DO WITH THEIR VOTER REGISTRATION STATUS or ability to vote by mail on a per election basis!!***

Mitigation #7: Legislation

- If the voter goes to the polls and votes a provisional ballot they will also come off of the PEVL if they *DO NOT RESPOND TO THE NOTIFICATION SENT.*
- ***REMEMBER, THIS HAS NOTHING TO DO WITH THEIR VOTER REGISTRATION STATUS!!***

Mitigation #8: Legislation

- Some groups advised the Secretary of State that they had checked off the PEVL box “for the voter” because it was “in the voter’s best interest”. This was done without the voter’s knowledge.
- ***There is legislation proposed to make it a crime to alter a voter registration form if you are anyone other than the voter—that it cannot be done without the voter’s consent.***

This would not impede a voter from getting assistance in completing the form if they need it.

Mitigation #9: Technology

- MCED is also researching the purchasing of ePollbooks which could assist in:
 - Quickly identifying the correct polling location for the voter.
 - Speed up the check-in process by locating the voter via a barcode on their voter ID &/or the magnetic strip on their DL.
 - Verify that the voter is registered and did so in time for that election.
